\* Hoang: Present about rich picture

\* Supervisor:

- Project team need to draw rich pictures for similar systems which are operating at present. Thence, analyzing and evaluating to find out pros and cons of current systems.
- Find out solutions to resolve weaknesses of current systems.
- Compare current systems with 3S to find out 3S' pros and cons. Find out whether 3S has resolved other systems' weaknesses or not

## **II. Present and resolve questions about business problem of capstone project**

### **1. Overload order**

\* Hoang: How does system deal with order overloading?

\* Supervisor:

- System should have messages to notify customer that system has received order information and will quickly execute order when it found ready-state shippers.
- Expand system in many ways such as recruiting semi-professional shipper.

### **2. Verification code**

\* Hoang: What is the logical way to verify product delivery between store and shipper?

\* Huy: Need only shippers' confirmation when they receive products.

\* Supervisor:

- When store created order, the system will generate 2 verification codes
- One verification code is used by store to insert into the app of the shipper who confirms the delivery.
- Another verification code is generated to send to customer by the store. When shipper comes to deliver product, customer will enter verification code to confirm that product is delivered.

### **3. Payment form**

\* Hoang: When shipper delivered successfully, which is the way to settle the payment between shipper company and store?

\* Supervisor:

- Bank transfer manually. Daily-paid salary.
- Shipper company must sign a contract with clear terms and conditions with store about delivery.

### **4. Shipper**

\* Hoang: Which is the best way to find shipper when order is received from store?

\* Supervisor:

- Scan locations of the 5 nearest shippers to the store. Who accepts the request first will assume that order.

\* Hoang: Terms and conditions to avoid the case when shipper takes the product and runs away.

\* Supervisor:

- Shipper's contract must have these clauses :

+ Have clear CV

+ Deposit 50% salary of the first month to assume responsibility.

### III. How to execute report 1

- \* Hoang: Which documents does project team need to prepare for report 1? When to deliver?
- \* Supervisor:
  - Report 1 include : Meeting minutes, Introduction, Report progress
  - Document written in Japanese :Meeting minutes, Progress Report.
  - Report 1 delivery time: 13/09

### IV. Determine capstone project plan

### V. Determine meetingschedule with supervisor
